The death list yesterday, with a toll of 36 for the 24 hour period, dropped nearly fifty percent, but the pneumonia deaths, 43, increased more than 100 percent.

Former President Taft Confers With Senators for Compromise.

(By Associated Press.)

Washington, January 23.—As a result of the progress during the past two days by the bi-partisan committee, leaders seeking to compromise differences on the peace treaty senators today were more hopeful of settlement of the controversy than they have been for several weeks.

Reports of conferees that a decided step forward had been made in the negotiations as to Article 10 of the League of Nations covenant and that definite agreement on that point might be expected at the committee meeting late today revived the activities of the mild reservationists on both sides paving the way for acceptance of the committee's agreement, should one be reached.

Former President Taft visited the capital today and conferred with senators active in the movement for a peace treaty compromise.

MORE NAVAL OPPOSITION TO DANIELS

Rear Admiral Knight Takes Sharp Issue With Naval Secretary.

IS FRANK WITH REASONS

Thinks Meritorious Service On Land Worthy of Recognition

(By Associated Press.)

Washington, January 23.—Rear Admiral Austin M. Knight, chairman of the Naval Decorations Board, took sharp issue today with Secretary Daniels on the matter of naval awards.

Testifying before the Senate investigating committee Admiral Knight said the board could not agree that officers who lost their ships through enemy action were entitled to high decorations unless they had engaged the enemy.

Admiral Knight said the case of the officers who lost their vessels through submarine attack were not comparable with those of Lawrence and Perry as Mr. Daniels had said in his recent letter to Senate Naval committee. Lawrence's name was, in fact, the witness said, because of the spirit shown during the engagement with the enemy, while Perry's name will ever live because the skill and daring he showed in transferring his flag from his sinking flagship to the Niagara and then leading his almost defeated fleet to victory.

Admiral Knight said Secretary Daniels did not furnish the board with any policy to guide it in making its recommendations and the board did not ask for one as the members did not consider it necessary.

Although the board was fully impressed with the importance of duty at sea, Admiral Knight said: "the difference between the Secretary and the board was that the board was impressed also by the importance of other kinds of service, both afloat and ashore, which were regarded as fully meeting the requirements of exceptionally meritorious service."

BRYAN'S WORDS DRAW A REPLY FROM DANIELS

Daniels Says Presence At Edwards Banquet Was As A "Neutral."

(By Associated Press.)

Washington, January 23.—Secretary Daniels today took issue with William Jennings Bryan, who stated in public addresses that Chairman Cummins of the Democratic National Committee either should disassociate himself from Governor Edwards of New Jersey, who was elected on a wet platform, or resign from the committee chairmanship.

Cummins attended the Governor's inaugural dinner, at which an Edwards presidential nomination boom was started, and in reply to Mr. Bryan he said he was present only as a "neutral."

Taxation Troubles in Hands Of Committee to Report On Tuesday.

House Will Never Consent To Bill Passed By Senate.

The proposal before the legislature to break the Smith one per cent law as a means of providing relief for financially distressed cities and school districts was in the hands of a committee on conference representing the two Houses today, following the refusal last night of the House to concur in the Senate amendments to the bill. The committee will meet Tuesday and no action can be taken on the measure until the committee meets.

House members predicted today that the House would never consent to amendment of the Smith law as proposed in the bill as it passed the Senate. It was said that failure to amend the Smith law may cause a return to consideration of an income tax law.

This Medicine Recommended by a Doctor

DR. J. H. WAGNER

PE-RU-NA may be purchased anywhere in tablet or liquid form.

When a doctor uses a medicine him-
self he knows that it is his patients,
he must know that it has merit.

This is what Dr. J. H. Wagner, a promi-
nent physician of Skaneateles, Kentucky, has
to say about Dr. Hargrave's well-known
remedy, PE-RU-NA: "I have used PE-
RU-NA myself for catarrh and have
given it to others for catarrh, bleeding
after eating and other ailments. It has
proved a success in all cases with old
and young men and women. All speak
well of PE-RU-NA. It is the best of all
tonics."

Dr. Wagner, out of the fullness of his
own personal experience, for the good of
all sick and suffering, recommends a
medicine which he knows to be good.
You may be sure a doctor would not en-
danger his professional reputation by
endorsing PE-RU-NA unless satisfied be-
yond a doubt of its value.

Whether your trouble be a cough or a
cold, or a more subtle catarrhal infection
of the stomach, bowels or other organs,
give PE-RU-NA a trial. The immediate
improvement which you will see will sat-
isfy beyond a doubt that PE-RU-NA is what you need.

FREIGHT CREWS WILL LAY OVER IN WASHINGTON

Important Change Will Be
Made in B. & O. Freight
Schedules.

Freight Terminal Here Is
Looming More Certain
Every Day.

Announcement of the re-scheduling
of certain Baltimore & Ohio freight
trains so that they will lay over in
this city is made from Chillicothe,
and within a short time it is expected
some definite action will be taken for
better accommodation of freights that
lay over here, such as, construction of
additional track and moving crews to
this city.

The exact number of freights to
lay over here has not been announced
but these trains will be a part of the
"Rainbow Freights" detouring from
the main line of the B. & O. at Mus-
selman and coming to this city,
thence going westward over the Mid-
land division to Midland City.

Announcement is made in connec-
tion with the re-scheduling of the
freights that at the present time at
least repairs will continue to be
made in Chillicothe, but it is believed
that eventually arrangements will be
made for ordinary repairs at this
point.

This city has greatly increased as
a freight center in the past few years
or since the B. & O. took over the old
C. H. & D. railroad, so that at the
present time the passing of freight
trains on some of the roads may be
heard at almost any hour of the day
or night, winter or summer.

It is understood that certain im-
provements to better facilitate the
handling of trains will be made dur-
ing the coming winter.

DEFENDANT WINS IN DAMAGE CASE

A verdict in favor of the defend-
ant was directed by Judge C. H. Kyle
Wednesday in common pleas court in
the case of W. C. Allen of Washing-
ton C. H. against J. W. Tomlinson
and others, members of the James-
town Fair Association. Mr. Allen sued
to recover \$400 damages from the fair
board on the ground that after award-
ing him the refreshment privilege for
Jamestown fair, the board sold the
concession to a carnival company
which crowded him off into an obscure
spot where he could not sell anything.
Judge Kyle held that the evidence in-
troduced by the plaintiff did not show
that the fair board had given conces-
sion to the carnival company for any
privilege which had been sold to Mr.
Allen and directed a verdict for the
defendant.—Xenia Gazette.

THOSE TWO WORDS "DOLLAR BACK" GAVE HIM FAITH

Henry Vandyke, Well Known Milk

That which gave this endorser
faith in Nerv-Worth has given thou-

faith:

Nerv-Worth Co.:—Before taking
Nerv-Worth, in fact ever since I was
17, I had serious stomach trouble.
Could not eat cabbage, turnips, corn-
cakes, or many vegetables, except
with serious distress. When I saw
that every Nerv-Worth ad contained
the words "Your Dollar back if the
tonic does not help YOU," I concluded
that the remedy must have real merit.
I bought a bottle of it. The first bottle
did me so much good that I felt en-
couraged to believe it would cure my
indigestion if I kept on. So I took Ner-
Worth until four bottles had gotten in
their work against my trouble, and
Now I Am Cured. I can digest all those
foods which gave me so much dis-
tress and can go to bed and sleep like

Nerv-Worth has.

STOMACH UPSET?

Get at the Real Cause—Take
Dr. Edwards' Olive Tablets

That's what thousands of stomach
sufferers are doing now. Instead of
taking tonics, or trying to patch up a
poor digestion, they are attacking the
real cause of the ailment—clogged
liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse
the liver in a soothing, healing way.
When the liver and bowels are per-
forming their natural functions, away
goes indigestion and stomach troubles.

Have you a bad taste, coated
tongue, poor appetite, a lazy, don't-
care feeling, no ambition or energy,
trouble with undigested foods? Take
Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a
purely vegetable compound mixed with
olive oil. You will know them by their
olive color. They do the work without
gripping, cramps or pain.

Take one or two at bedtime for quick
relief. Eat what you like. 10c and 25c.

WORLD'S RECORD BROKEN BY TANLAC

Over Four Million Bottles
Sold in 1919, the Fifth
Year of its History.

Tanlac has brought a new romance
to the commercial world. It is the
story of an acceptance and appre-
ciation of merit never before attained
by a proprietary medicine. Staid
business men to whom the actual
figures of the production of
Tanlac have been presented have
scouted them until the proof was
shown. The production of Tanlac
now stands at the rate of almost four
million bottles per year. The exact
figures are 3,992,800. The sale of a
million bottles in the first nine
months, which far exceeded any re-
cord ever made by a proprietary me-
dicine, now seems insignificant.

OVER 17,000 BOTTLES A DAY

The sale for the first ten weeks of
last year amounted to over One Mil-
lion bottles, an average of over one
hundred thousand bottles per week,
which is at the rate of more than
seventeen thousand bottles per day. It
seems almost incredible, but these are
actual figures and such is the record
established by this wonderful me-
dicine.

"One firm alone," said Mr. G. F.
Willis, the international distributor
of Tanlac, "has given orders for a to-
tal of 150,000 bottles within eighteen
months' time. The firm I refer to is
the Spurlock-Neal Co., of Nashville,
Tenn., Mr. C. S. Martin, president of
this great firm, who is also president
of the Southern Drug Jobbers' as-
sociation, will verify this statement.

"Tanlac is the result of many years
of arduous study by Mr. Cooper and
his principal chemist. In fact, the
two of them have carefully watched
its development from the beginning
of the experimental stage to its pre-
sent state of efficiency. So remark-
able have been the results obtained
from this medicine that I doubt seri-
ously if either of these men realize
the impensity of their success. Like
many other great discoveries, it has
required time to prove its far-reach-
ing effects."

JACOBS PHARMACY CO.

TANLAC, THE CELEBRATED MEDICINE, WHICH
HAS BEEN ACCOMPLISHING REMARKABLE
RESULTS IN THE UNITED STATES AND CAN-
ADA, WILL NOW BE SOLD IN WASHINGTON C.
H. BY C. S. HAVER—REMARKABLE SALES REC-
ORD OF SIXTEEN MILLION BOTTLES PHE-
NOMENAL AND UNPRECEDENTED.

Tanlac, the celebrated medicine which has been ac-
complishing such remarkable results throughout the United
States and Canada, and which has been having a phe-
nomenal sale wherever it has been introduced, will now
be sold in Washington C. H. by C. S. Haver. The amazing
success achieved by this medicine in only five years' time
is not only phenomenal, but unprecedented.

The discovery of Tanlac, the beginning of its manufacture, the estab-
lishment of the large and modern laboratories at Dayton, Ohio, occupying
more than 600,000 feet of floor space, reads more like fiction than facts
from latter-day commercial history.

Sixteen Million Bottles Sold in Five Years.

Although placed on the market but little more than five years ago, over
sixteen million bottles have been sold, and its sales record probably has
never been equaled in the history of the drug trade in America.

From coast to coast and from the Gulf to the Great Lakes, Tanlac is
known and honored. Millions have taken it and have pronounced it the
greatest medicine of all time. No matter where you go throughout the
United States, whether East, West, North or South, Tanlac is a household
word and is now unquestionably the most widely talked of medicine in the
world today.

Briefly, this is the record of the truly marvelous medicine which will
now be placed within the reach of every one. In only a few weeks' time it
will be placed on sale in practically every large city, town, village and hamlet
throughout the entire section.

The hymns, "Asleep in Jesus" and "Jesus Savior Pilot Me" were sung by Mrs. Lulu H. Robinson, Ruth Clark, Regina Staudus and Carey Persinger. The floral remembrances were exceedingly pretty. A 100% Increase In Two Weeks Time For A Dayton Man

Declares his strength and endurance is so much greater since he took the new medicine, Dreco.

It saved him an operation for Piles, he declares. "I have improved a hundred per cent in the last two weeks and don't feel like the same disheartened person," says Mr. Chas. McClintock of 419 Jefferson St., Dayton, O., who is an assembler at the Dayton Pump Co. "I was just going to have an operation for piles, but hated to undertake it. I heard so much of Dreco that I decided to try it before being operated on, as it was reputed to be such a fine bowel remedy. I am mighty glad now that I did, for I'm so much better that it's no operation for me now. Dreco got my bowels to moving gently but regularly every day; gave me a splendid appetite, built up my strength, and I go on my job feeling better than for months past. Dreco is a great medicine and I expect to boost it every chance I get."

Dreco, the new herbal system tonic, tones up and strengthens the nervous system; invigorates the entire body, restores energy and vitality, tones up the digestive, gastritis and sour stomach, stimulates a sluggish liver, strengthens weak kidneys, soothes tired nerves, relieves constipation, and creates a good appetite.

All good druggists now sell Dreco and it is highly recommended in Washington C. H. by Frank Christopher.—Adv.

MUST KEEP ALLEYS CLEAR OF REFUSE

City Service Director Tracey has received numerous complaints the past several days that ashes and cinders containing nails and glass have been thrown in the streets and alleys by persons unsuspecting the trouble caused by the action, or that it was a violation of the city ordinance.

The Service Director states that not only is the practice a very un-ightly one but that danger to automobile tires is caused by the nails and tacks which are very often contained in the ashes.

Ashes which have been dumped in the streets may remain, but the Service Director asks that no more violations follow, and that more care be exercised in what is cast into the alley ways.

HEAVY GOING GIVE IT MORE — LIBERTY —

The heavier the going the more the motorist appreciates a power-producing fuel. The oftener he is compelled to go the surer he is to watch his gas gage.

And the man who watches his gas gage closest is the man who is loudest in his praise of

LIBERTY GASOLINE

It is a proven fact that it delivers more miles, which it could not do if it did not contain more power.

It burns freely and cleanly; the scientific methods employed in refining frees it of all foreign matter and thus it causes a minimum of carburetor trouble and leaves least carbon.

Your neighbors are using Liberty and know its superiority. When will you become converted? You have nothing to lose and all to gain by making the trial next time you fill your tank.

The Morning After

Germany is having her "morning after," and it's a dandy.

Drunk with power, she indulged for four long years in the most stupendous rampage it has ever been given a nation to experience.

Now she is waking up to the "morning after" headache and general debility that usually succeed unlimited orgy and is facing the necessity of taking her medicine and paying the doctor.

She has swallowed some bitter potions, but her treatment is not yet complete.

Her imposing merchant fleet of by-gone days has dwindled to a handful of ships; her powerful navy has become a memory—her army has been minimized; her possessions have shrunk; her great trade combinations have been irreparably crippled; her resources have been halved, and halved again; her money values have sunk to inconceivable levels; her prestige and credit have all but vanished; she is tired, she is hungry, she is cold and unclothed—and still new tolls are being exacted from her. She must pay.

By the terms of her peace agreement she is required to divert to France some twenty million tons of coal annually, in spite of the fact that her normal output of eighty million tons has been reduced to fifty percent of pre-war production by conditions that have followed her failure at arms.

At the moment she is facing another draught of gall in the form of new taxes which promise to reduce the individual pocketbook to the flatness of the proverbial pancake. During the war Germans were asked to loan their money to the government. Now they must give it. One of the more radical new tax laws is the estate tax on inheritances. Ironically this law sets forth that "in no case must the tax exceed the amount of the inheritance."

An income tax ranges up to about 70 percent as the income grows. There is a profit tax and a heavy tax on during-the-war increases in wealth. Revenue taxes have been stiffened and a capital levy is next on the list.

With food, clothing and coal scarce, the new taxes are not expected to make for a heightened morale. But they will have to be met.

Taking her bitter medicine will have at least one salutary effect on her future generations if it serves to impress them with the wisdom of looking over their ground before they set out on another world conquest.

Maurice Maeterlinck

Maurice Maeterlinck, the distinguished Belgian author and philosopher, whose "Blue Bird" deserves a place in the trilogy which includes "Peter Pan" and "Chanticleer," is now interesting New York audiences in theories of spiritualism and claims that he "will explain to the people of America the first scientific proofs of the existence of an immortal soul."

Europe could send few writers who would be accorded a more cordial welcome than this writer of creative imagination and even, although his command of English is weak, since he could not speak English when he left Belgium, he is a welcome visitor both as a representative of the Kingdom of Belgium and as an "ambassador of the realm of spirit."

Maurice Maeterlinck says that he accepts generally the theories of Sir Oliver Lodge and will prove scientifically the existence of the soul. However, he reserves the right to make his own study and develop his own individual line of thought. One of his theories is the belief that thought is antecedent to the brain and creates brain, drawing from this the conclusion that thought cannot die even should the brain perish. He brands as false the common belief that thought is only a secretion of the brain and gives as a still further reason for his belief in an undying soul examples to prove the existence of a sub-conscious mind.

The Belgian philosopher is now studying the possibility of communicating with the spirit world and of the soul's appearance in a tangible form before mortals.

In his triple capacity of poet, dramatist and philosopher there is reason to believe that Maeterlinck will interest New York far beyond the usual celebrity. There is also every reason to think that with the interest in the occult which appeals to so many minds, as the advocate of the theories of the great scientist, Sir Oliver Lodge, Maeterlinck will create for himself a place quite apart from that of the writer of a famous allegorical play, and be one of the outstanding figures of interest in the world of science as it delves into the study of spiritualism.

CURED MY WIFE'S COUGH AND IT BUILT ME UP

Man Declares Hypo-Cod The Best
 Tonic In World. Made Both
 Well and Strong.

My wife and I consider Earle's Hypo-Cod the finest sort of medicine and have good cause to be thankful for the good it did us," declared Mr. Morton whose address is given below.

"My wife had a bad cough and I got her a bottle of Earle's Hypo-Cod it was only a few days before all her cough was gone and she was feeling strong and in good health again. I took it myself because I was in a nervous and general run-down condition. If I'd get up right quick I would be so dizzy I could hardly stand. The awful headaches I had made it impossible for me to rest well at night. My appetite was so poor I hardly ate any thing no matter how tasty a meal the wife prepared," continued Mr. Morton, "all those troubles are over now though and I feel hungry when meal time comes. My nerves are steady and I sleep fine and get up ready for work. I'm so much better in every way I gladly recommend Earle's Hypo-Cod to all," continued Mr. W. C. Morton, 336 Norwood Ave., Dayton, Ohio.

Earle's Hypo-Cod stops a cough or cold, relieves the chest soreness and clears away the bronchial, catarrhal and asthmatic conditions in just a few days according to users. It then starts building up the system to robust health and renewed vitality. Try a bottle tonight.

Earle's Hypo-Cod is sold here by C. S. Haver's and Frank Christopher's drug stores and the leading druggists in all nearby towns. Price \$1.25 plus 5c war tax.—Adv.

Good Health Life's Greatest Blessing

Happiness and Success Within Easy
 Reach of Red-Blooded Men
 And Women

Anemic Condition Unnecessary

Pepto-Mangan Makes Rich, Red Blood
 —Builds Up Pale, Thin Anemic
 Men and Women.

Good health is the most important asset of life. Without a vigorous, strong body and a keen, clear mind, true happiness and enjoyment are impossible.

And yet so many women, and men too, whose misfortune it is to be pale thin and anemic, hopelessly accept this condition in the belief that robust health and real happiness are not for them.

Thousands of men and women have been restored to vigorous health and lasting happiness by Gude's Pepto-Mangan. This beneficial blood tonic contains the very properties so vitally needed to improve the blood. Pepto-Mangan, if taken for a few weeks, will enrich the blood and create thousands of the tiny red blood cells that are so necessary to carry nourishment and strength to every part of the body.

Pepto-Mangan is safe, beneficial, and pleasant to the taste. For convenience it is prepared in liquid and tablet form, both possessing exactly the same medicinal properties.

Be sure to ask your druggist for "Gude's" when you order Pepto-Mangan. "Gude's" is the genuine Pepto-Mangan. Look for the name "Gude's" on the package.—Adv.

Good Judgment Leads the Care- ful Buyer to com- pare—and Our Goods Invite Comparison at all Times. . . .

When purchasing an automobile, a watch, furniture, silverware, your lighting plant, etc., you first look at the financial strength, reputation, and years in business, of the manufacturer. Second, you think of the local dealer and whether or not he is handling the brands that you prefer; and you also want to feel that his store is a permanent fixture, that he is interested in the community and, last but not least, is willing to render service in the years to come on the commodities that you are buying.

So it is in the Implement Lines. The farmer of today wants to know the manufacturer's financial circumstances and what his trade mark stands for. And he wants to know whether or not the dealer will back up the high ideals that the manufacturer has manifestly put forth.

Through the expressed opinion of the farmers of this county and the actual working out of various lines, we have found what we believe the right line of Implements backed by the right manufacturer and with our years of experience we back them up and give prompt service, which is an asset to every farmer.

Each small table was adorned with a little pot of pink begonia in luxuriant bloom.

Following the luncheon the guests engaged in the usual afternoon game.

If the Masonic Social committee felt qualms over the success of the second dance as the streets grew more and more icy Thursday night, they were proved all unnecessary.

Fifty couples rode or slid to the Temple and once in the ball room, all light and gayety, forgot there was anything in the world but pleasure.

Wormack's Orchestra of Dayton, all Jazz and pep, made a tremendous hit and the dancers heard the strains of the last one step with reluctance.

A light luncheon was served cafeteria fashion.

The social committee, Messrs Glenn Rodgers, Charles Brown, Walter, Ellis Herman Fry, had everything in competent arrangement.

Mr. and Mrs. Walter Herron of Columbus, were guests from away.

Mrs. Charles J. Parrish, vice president-at-large of the Ohio federation, announces that a new city federation of fifteen clubs was formed at Middletown, January 8.—"Ever since the Ohio State federation was formed in 1894, all clubs have recognized the value of the city federation as a clearing-house for ideas, plans and constructive work," Mrs. Parrish says in reporting the Middletown federation. "The have seen their opportunity for civic service and altruistic work of many kinds."

Mrs. Paul Frank of Crestline, chairman of the state social and industrial committee reports that a city federation was formed in her little home city last month. The new Crestline federation has sent a special invitation to Mrs. Charles D. Halter, vice president of the Middle-North district, to be the guest of the federation at the February meeting.

Mrs. W. H. Sharp, Columbus, president of the Ohio Federation of Women's Clubs, extends a hearty

welcome to our new city federations and hopes that there will be many more of them.

Interesting account of the activities in Vladivostok as conducted by the American colony there, is given in a letter just received at the Cincinnati headquarters of the Ohio and West Virginia Field, Young Women's Christian Association, from Miss Mildred Corbett, Director of Y. W. C. A. work in Siberia.

"We have had a few rather cold days," write Miss Corbett. "We have put away our summer uniforms and are wearing our winter ones. It is interesting to watch the emerging of the winter costumes of the natives here. They put on one layer after another as winter progresses, until they finally become huge bundles of stuff. A cap of some sort seems to be a starter. Then there occurs a strong variety of long coat, worn now open at the throat and flapping in the breeze. They are so long that they almost sweep the ground and for the most part are frayed and tattered, besides being faded beyond any possibility of recognizing their original color.

"I wish you could see the way in which we do it in Siberia. The Chinese coolie is an order of human being that does not exist in any part of the world in which it has been my fortune to visit. He must be human and he does not look like it. It is terrible to see a human being doing the work of a beast of burden. What we should do without the system here I don't know, as there is no way to get things carried. I have seen four of them carry a piano from one side of the city to the other.

"Difficulties of marketing are due to the depreciation in the value of the Russian rouble," writes Miss Corbett. "In the days when Russia had a stable Government a rouble was worth about 50 cents of our money. For the past two or three weeks we have been buying roubles at the amazing rate of from 130 to 150 for one dollar. Just think of what it means to these people.

vacancy, and when such examination has been held and the papers in connection therewith have been rated the said Commission shall certify the result thereof to the Postmaster General who shall submit to the President the name of the highest qualified eligible for appointment to fill such vacancy unless it is established that the character or residence of such applicant disqualifies him for appointment. Snow And Ice Have No Terror For This Mother

Snow and ice and even wet winter days have no terror for the mother who knows the value of Duffee's Cough Syrup in the care of her children. It helps to prevent colds as well as to overcome them, and it is invaluable when the cough appears, soothing and quieting the little sufferer, breaking up the cold and building up the resistance. There isn't a harmful drug in it, either, so it can be given in perfect safety.

Older people find it just as useful as the little ones. In combination with Duffee's Fifty-Fifty Tonic Laxatives, it will quickly break up the most severe cold, stop the coughing and remove the soreness. Thirty-five years of success have proved its remarkable value. On sale by grocers and druggists. Keep a bottle in the house and check the cold at the start.

HAVE CANCELLED ALL THE GAMES

Washington High School did not go to Wilmington Friday afternoon. Wilmington High got in touch with the local basketball authorities at noon Friday and cancelled the basketball game scheduled for Friday evening because of the ice which has enveloped not only this county but also Clinton county to the extent that it is impossible for people to attend a game.

Coach Moorehead stated that the game will probably be played at some early future date.

Neither will there be any games at the local high school Friday evening because of the condition of the streets. Class games had previously been scheduled between the Freshmen and Sophomore boys and the girls of the two classes but all have been cancelled.

FAYETTE COATED WITH WORST ICE SHEET IN YEARS

Highways Almost Impassable and Streets and Sidewalks Worst of the Season.

Many Persons Injured by Falls on Ice—"Creepers" Much in Demand.

The rain of Thursday evening and Friday morning, freezing almost as rapidly as it fell, added to the already thick coating of ice on everything, with the result that by Friday noon the earth was covered with the greatest coating of ice in recent years, traffic was almost suspended, and many persons were more or less badly injured by losing their footing and falling heavily.

Trees were laden with a thick coating of ice, while telephone and telegraph wires were strained to the breaking point, with prospect of a great deal of demoralization in service before the ice leaves.

Ice Two Weeks Old

The sheeting of ice is now more than two weeks old, and covers the ground from one-half inch to six or eight inches in depth.

The melting snow, when turned to ice by a sudden freeze a few days ago, left the ground enshrouded, and nearly every day since that time rain, snow and sleet have added their quota until the greatest ice-sheet remembered, in a great many years, covers the entire earth in this part of Ohio.

Wheat is Suffering

Many farmers claim that the sheet of ice for so long a period has been very harmful to the wheat, and that by reason of the condition, great patches of wheat will be entirely wiped out.

Other farmers insist that there will be little or no damage as result of the ice, believing that it is better off than if there had been no covering at all.

Roads Never Worse

Persons attempting travel on the highways declare that their condition was never worse, and that once outside of the beaten tracks, it is virtually impossible to stay in the road.

Two automobiles find great difficulty in passing, and dozens of machines have slipped into the ditches during the past 48 hours.

Rural carriers find their work slow and extremely hazardous.

Skaters Are Busy

Never before has so large a number of boys and girls utilized the main streets for skating, and the flocks of youngsters can go almost anywhere on skates and find the surface almost

equal to that of the ideal skating pond.

Uses Much Salt

A great deal of salt has been used on walks about the business part of the city, but up to noon Friday there was still ample room for the use of some aid in melting the ice before many business houses. Even the courthouse steps are extremely dangerous.

Amusing Incidents

Many amusing incidents are related in connection with the ice-sheet. Automobiles spinning about in the streets like gigantic tops and persons falling and not injured who could not arise with out assistance, with some instances of two or three persons piling upon the ice while assisting some one to escape from the same predicament, were not infrequent sights.

"Creepers" in Demand

Ten times more ice creepers were in evidence than ever before, and after the local supply was exhausted, mechanics were set to work producing "home made" creepers that, in some instances, were equal to, or better than the patented creepers.

Business Demoralized

Business for two days has been completely demoralized because of the dangerous condition of streets, highways and side walks.

GIVE HIM A SQUARE DEAL

Just for once put yourself in the other man's place. Remember that bills are harassing him, remember that he is straining himself to meet the claims of other people, and is dependent on you, who owe him money.

You are the start of a long chain. If you are a customer of a grocery and owe that grocer money, the grocer must have your money to pay the wholesaler. The wholesaler must have your money to pay the factory. The factory must have your money to pay the farmers, and to pay its employees.

Then if you are in business, you must have the employee's money to meet your bills.

When one slows up the chain, all of you suffer. Besides, there is an economic loss to the whole community, a part of which falls on your shoulders whenever the payment of bills is delayed.

That is why one day has been set aside for the consideration of this.

National Thrift Week

Pay-Your-Bills Day—Saturday, Jan. 24

There is a moral obligation behind it all and no man ever avoided his moral obligations without suffering. The moral obligation to be square with other people is the basis of modern society and modern credit.

Whenever the majority of people or even a large minority abandons the platform of moral integrity, the entire business fabric will crush down.

There is something contemptible about the man who fails to pay his bills. He has obtained goods because the seller believed in him and thought he was square. Then when he fails to pay, he is no better than a confidence man. In fact, he has proven himself of exactly the same stripe.

Keep Out of It

You don't want to be considered in that class. You intend to pay those bills. You have put it off, waiting a more convenient season, and in so doing you have disarranged the whole business fabric. You have made one of those economic losses we talk about. That economic loss is taking money directly out of your pocket, because it is increasing the expense of doing business. You must help pay for the man who does not pay.

When all the world pays its just debts promptly, goods must be cheaper,

Invest Wisely

Government securities are the best investment for the individual, because they are perfectly safe, easily converted into cash, are tax free and pay good interest.

Savings Stamps invest sums slightly less than five dollars, and return 4.27% interest.

Treasury Savings Certificates in \$100 or \$1000 denominations return the same interest.

Treasury Certificates of Indebtedness may be had of the banks.

Government bonds are always good purchases.

Invest your money in government securities.

money must turn faster, more goods can be produced—we shall all have more money.

Start With Millions

Will you be one of the many millions who, on this day, will settle their bills in full and take a fresh start?

The appeal isn't for the sake of helping other people. That appeal is to every honest man for the sake of helping himself, decreasing losses and waste and increasing productivity.

This is the last day of National Thrift Week. The lesson has been brought home to many millions of people—that we can't live to ourselves alone, but that we

must suffer by the misdeeds or the carelessness or the waste of other people, and that they, in turn, must suffer through our negligence.

Your Big Lesson

If the week has brought to you the great lesson of thrift in your time, in the materials you use, thrift in the dealings with other people, if you are determined to give an honest value for the dollar, and to insist on getting the honest value for the dollar, you will be helping this nation wonderfully, but you will be helping yourself still more.
